FARM LABOR CONTRACTOR'S SIGNATURE

S. Martin

DATE SIGNED/REGISTERED

12-17-17^{5m}

Please list below the businesses that your crew will be working for:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

prior to transportation to the worksite, the Pesticide Safety Information Series leaflet A-9 may instead be made readily accessible at that central location. Upon request, the employer shall read to the requesting employee, in a language understandable to that employee, Pesticide Safety Information Series leaflet A-9. Pesticide Safety Information Series leaflets are available from this office. Readily accessible means that an employee may see and read the document without having to make a specific request of any person.

4. As an employer, farm labor contractors shall assure that sufficient water (of a quality and temperature that will not cause illness or injury when it contacts the skin or eyes or if it is swallowed), soap, and single use towels for washing of hands and face and for emergency eye flushing are reasonably accessible to all fieldworkers engaged in activities involving contact with treated surfaces in treated fields. These decontamination facilities shall not be more than 1/4 mile from the fieldworkers (or at the nearest point of vehicular access).

5. Emergency medical care for employees shall be planned for in advance.

a. Employees, or their supervisor in the field, shall be informed of the name and location of a doctor, hospital, clinic, or emergency room where employees can receive medical treatment.

b. If it is not convenient to go to the designated location, procedures to take the employees elsewhere are required.

6. When it is suspected that an employee is ill due to a pesticide or when exposure to a pesticide has occurred that could result in illness of the employee, the employee must be taken to a doctor immediately. An employee who is ill must not be allowed to drive himself or herself to the doctor.

7. A farm labor contractor whose workers apply pesticides, including baits, must be licensed as an agricultural pest control business and must register their Pest Control Business license with the Commissioner.

8. It is the contractor's responsibility to ensure that the worker's safety is protected. Civil penalties in the form of a fine may be levied against the employer for failing to comply with the laws and regulations outlined here.

Your signature acknowledges that you have reviewed the above items prior to registering in Santa Barbara County.
